## Special Message

“Senior year is packed with countless milestones, exciting moments, and memories. One highlight of my senior journey was the opportunity to connect with new people, enriching my experience in ways I hadn't expect. These new friendships contributed immensely to my senior year, leaving behind unforgettable moments.

Among those who left a lasting impression was Mr. Diaz. One of the many things he did to make my senior year more entertaining was the fact that he made lectures a lot more humorous, and entertaining then what they could've been.

My favorite part of senior year was the ability to play sports, this factor helped me stay active and it also helped me maintain good grades along with good attendance. The memories I got from my last year in high school will stick with me for the rest of my life by looking back at the many new people I met that really helped make my senior year better than what it could've been.” - Erick Beas Rios (Class of 2024)

## DID YOU KNOW?...

Dr. Seuss was voted "Least Likely to Succeed" by his classmates at Dartmouth College. He later went on to write and illustrate 44 world-famous books for children and their parents. Along the way, he changed how children learned to read. He won a Pulitzer Prize and was awarded eight honorary doctorates. Works based on his original stories have won three Oscars, three Emmys, three Grammys and a Peabody Award. Moral of the story don't doubt yourself & never give up :)

Pictured above we have Monique reading to her peers in honor of Read Across America day which takes place on March 2nd.
