

College and Career Ready Scholars:

I would like to recognize Fabian Hernandez for his work in the Urban Rural Fire Fighting Class. Fabian will be participating in the skills competition at the Reedley College “Safari Days” on March 22, 2018. Our school is excited for Fabian representing Lovell High and Cutler-Orosi School District. This is an opportunity for students to demonstrate the skills they have acquired in their career technical classes. Great Job Fabian!

Climb the Mountain and See Beyond

Productive Citizens

The Lovell High students are excited about the progress on their school garden. We are currently in the process of planting radish, cucumbers, tomatoes, and squash. Students have enjoyed the hands on work with Mr. Hosler. We also look forward to our harvest in the spring of this year.

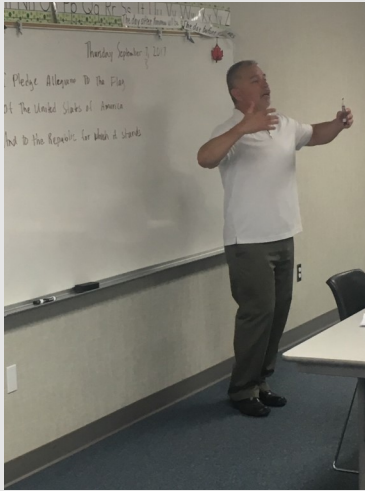

Critical Thinkers & Collaborative Problem Solvers:

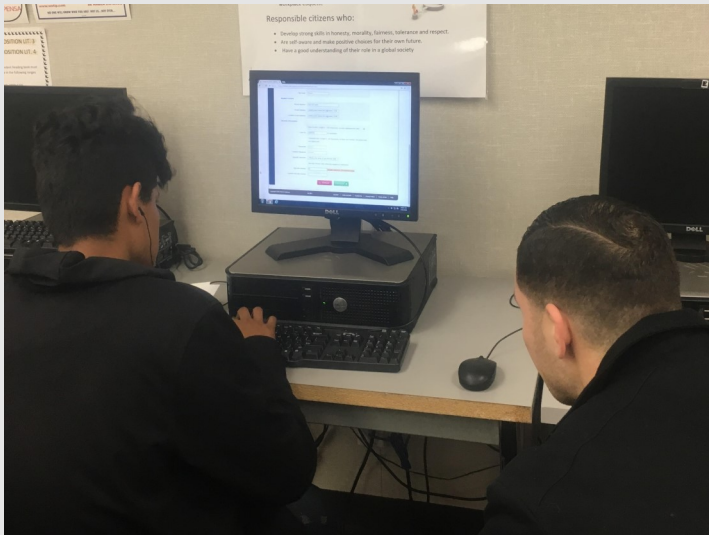

I would like to recognize the work of Mr. Miguel Flores with the Cutler-Orosi Adult School Citizenship Class. He has been working extensively with Ms. Jennifer Gagliardi on the implementation of this new course to our program. Jennifer is considered one of the experts in Adult Education and works with the Outreach and Technical Assistance Network (OTAN). Miguel recently had a practice session of the mix and match citizenship interview at the EL Civics Conference in Ceres. This interview can currently be viewed at <http://www.uscitizenpod.com/search?q=miguel+flores>

Great job Miguel in using quality + synergy = excellence.

Career and College Ready

Mr. Palafox is working with our seniors on their FAFSA applications. We are diligently assisting all students in making sure they complete this important task for their future college endeavors.

Upcoming Events:
