

Alternative Education Friday Focus

September 1, 2017

Administrator's Message:

I want to recognize the phenomenal Back to School Night this past Wednesday. We had seventy percent of our seniors attend the parent information meeting. Ms. Trevino did a fabulous job reviewing the graduation requirements for our parents and students. In addition, we went over the after school intervention block with all attendees. Students will have an opportunity to work on Cyber High, receive content course intervention, and make up absences. We had over half our participants enroll for the intervention block.

Career & College Ready Scholars

The alternative education students received a presentation from Dr. Moz Amin on transfer opportunities and career planning. Dr. Amin is a continuation high school graduate who also later earned a MD degree from UC Davis. He gave a very passionate presentation on opportunities for all students.

Upcoming Events

CDS Back to School 9-7 @ 5:00

Extended PL with OHS 9-11

TCOE College Night 9-12 in Visalia
